

Report on Minnesota NCN Summer Gathering, June 10-11, 2022, Minneapolis
by Andrew Howard
Hi everyone,

Thanks for coming to the Nurturing Communities Network regional gathering for MN. Praise God for good food, good weather, and good friends! I wanted to pass along some content from the gathering.

- Photos:
 - See attached for our group photo.
 - Click this link for pictures that Isaac and I took at the gathering. You can add your photos to this album, if you would like to share your photos. <https://photos.app.goo.gl/3rgi7nhoujTGxnKf6>
- Audio Recordings
 - Apologies, half-way through Pastor Jin's teaching I forgot that I usually record audio recordings from teachings at NCN gatherings. So then I started an audio recording of Jin's message 1/2 way through, and I also forgot to request for the workshops that I didn't go to to record them as well. See below for links to 1/2 of the content shared at the gathering. The glass is half full, right???
 - Pastor Jin - [Plenary](#)
 - Jeff - [Egoanity](#)
 - Andrew - [Epiphanies from House Church](#). Click [here](#) for the handout.
- Special thanks to everyone who helped make this gathering happen
 - Thanks to CAN for hosting the gathering this year! And for demonstrating how gathering around good food is a great way to praise God.
 - Thanks to all of the workshop leaders! Really good conversations this year.

I mentioned on Saturday morning that this gathering had been initiated by the Nurturing Communities Network which is a national network of intentional Christian communities. If you are interested in coming to the fall gathering in October in Kentucky, want to check out recordings previous from roundtable discussions held over Zoom, reference info for intentional communities, or peruse the map of intentional Christian communities from around the nation, check out the website for more info.

This gathering is currently hosted annually, but hopefully that doesn't stop people from getting together and connecting throughout the year.

Blessings to you and yours.

Andrew
